

Oasis Master™ Water Filters

Oasis Master™ Water Filtration service allows the consumer with the luxury, and convenience, of having, clean, healthy, filtered water, at every outlet in the home. With the OasisMaster™ PP-1000, you can protect your investment in your home, water heaters, piping fixtures, as well as save money on clothing and dry cleaning costs.

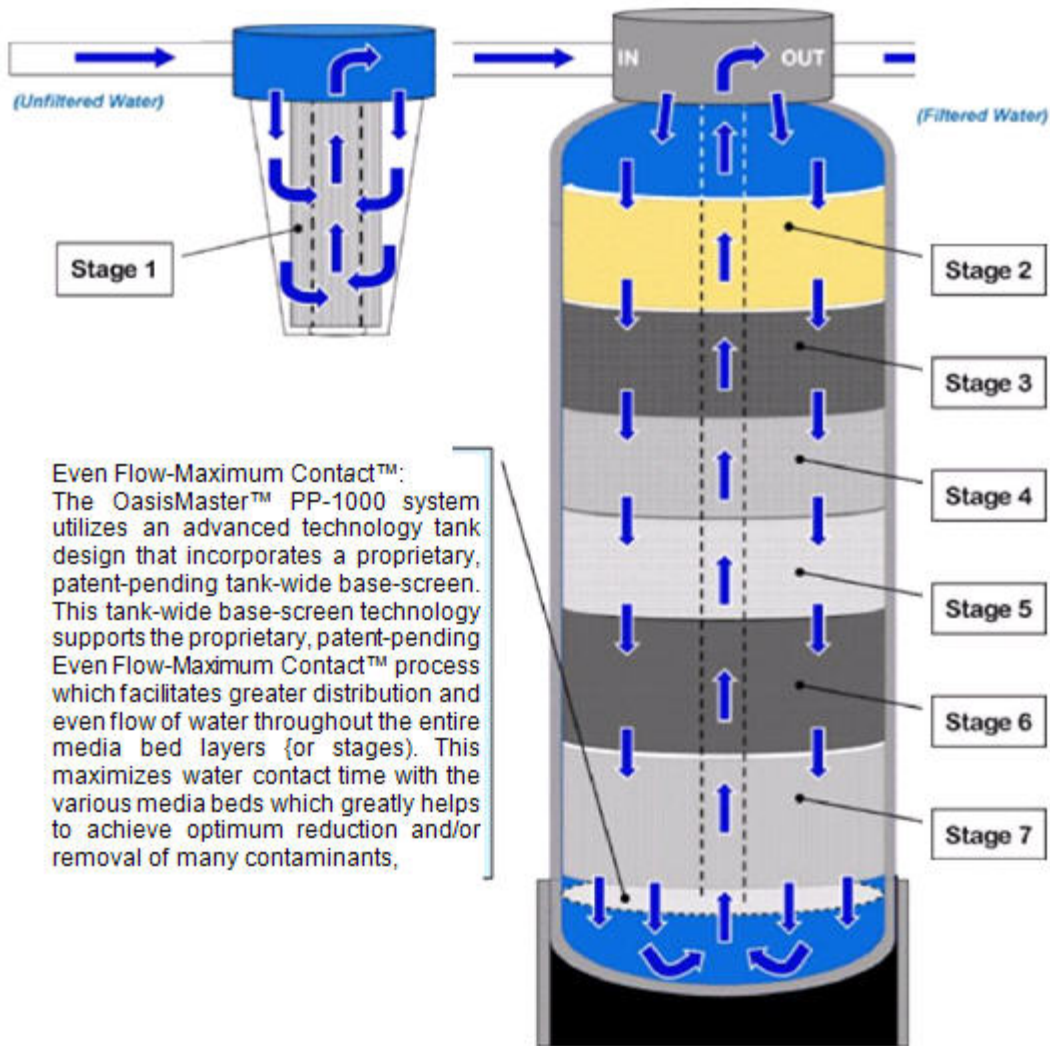

The Oasis Master™ PP-1000 Premium Whole Home Water Filter Series is designed to effectively perform in three ranges based on your filtration needs.

- The Oasis Master™ PP-1000 Mini™ is designed to effectively perform for **300,000 gallons** or **3-5 years** use for the average household.
- The Oasis Master™ PP-1000 Dynamo™ is designed to effectively perform for **500,000 gallons** or **5-7 years** use for the average household.
- The Oasis Master™ PP-1000 Maximo™ is designed to effectively perform for **750,000 gallons** or **7-10 years** use for the average household.

The Oasis Master™ PP-1000 is a Point-of-Entry (POE) system designed for municipally treated water, but may also be used, in many cases, as a well water filter, or treatment system. However, it may be used for both, Residential and or Light Commercial applications.

The PP-1000 which **utilizes 7 proprietary, advanced water filtration stages** is completely loaded with NSF® certified premium-grade water filtration media developed to completely remove or significantly reduce Chlorine, Chloramine, sediment and/or particulate matter, cysts, copepods, Volatile Organic Compounds (VOCs), Synthetic Organic Compounds (SOCs), THMs (Chlorine by-product), PAHs (Chloramine by-product), trace heavy metals (i.e. lead, mercury, or iron), MTBEs, atrazine, benzene, xylene, pesticides, insecticides, herbicides, tastes, odors and hundreds of other potential contaminants and harmful chemicals from the water entering your home.

OasisMaster™ PP-1000 Premium Whole House Water Filtration System

The OasisMaster™ PP-1000 Premium Whole House Water Filtration System utilizes premium-grade NSF® certified water filtration media (e.g. KDF®, [KDF® Product Data](#)), components/parts/materials (per NSF/ANSI Standard 61) and tank (per NSF/ANSI Standard 44).

For certification and supplier verification information pertaining to the GAC and KDF® media, PVC plastic riser and connector material, and tank used to produce our main system, please contact Technical Service of the Eternal Oasis Water Solutions R&D Division at Technicals@EternalOasisWaterSolutions.com.
